To: info@texasgop.org, Chris Carlin <chrisnoelcarlin@gmail.com>

Good evening,

I am writing to you as a former member of the Republican Party of Texas that was elected to represent my community as a Precinct Committee Chair in Bexar County, Texas.

When I began my work inside of the Republican Party, Donald Trump's campaign began spying on me inside of my home and attempting to send me 'signals' to do things on his behalf or to not do things that they did not want me to do.

It did not take long before their team began causing damage to my home and property in an effort to manage or direct my political speech into the directions that they wanted it to go.

Since that all began, I have contacted the United States Secret Service, the Federal Bureau of Investigations, the Texas Rangers, the San Antonio Police Department, the Governor of Texas, all of my political representatives, and even moved to Spain to try to rid my life of his ongoing spying presence and attempts to cause disruption in my life.

I am writing to inform your political party that your leader is operating a very large illegal spying operation that he is using to threaten and intimidate people inside of their homes as retaliation for their involvement in the political process.

I am writing to inform you that your leader is using the United States military to target innocent American citizens in order to exert his 'power' over their lives.

I am writing to inform you that Donald Trump appears to be suffering from an obsessive compulsive mental disorder that is causing him to maniacally seek retribution against people that he perceives to oppose his efforts to 'conquer' America - as a literal 'evil king.'

I wish that I were kidding. I wish that this were some form of dream or hallucination, but it simply is not. Donald Trump has taken up residence as an unwanted spy over my home and he (his team) is working diligently every single day to disrupt my life using a gang of criminals that he is managing as his arms and legs 'on the ground' here in San Antonio, Texas.

I have contacted so many politicians and government agencies, and have received so little in response (nothing) that I am firmly concluding that you are ALL operating as a group of bad actors that do not represent the United States citizen or public at all.

I am writing to inform you that this team has identified itself to me as being the 'Freemasons' that are publicly known to be the 'Founding Fathers' of America itself. Since learning about the methods that 'Freemasons' use to obtain and maintain their power, I am writing to alert you that they are now firmly operating in the form of a racketeering criminal conspiracy.

I hope that you all understand that this is what caused the American public to turn away from your party in the same way that it has turned away from the Democrat Party: WE HAVE DETERMINED THAT YOU ARE ALL LOW-LIFE CRIMINALS!

I hope that this message will serve as a wake-up call to those of you that remain with the party and still believe in the fake values that you all purport to represent. Personally, I find your 'party' to be hopelessly lost in its own affiliations with the criminal conspirators known as 'Freemasonry'.

Kindest regards,

Chris Noel Carlin,
Former Precinct Committee Chair,
Bexar County Precinct #2053, and
Now Adamant Opponent of Texas Republicans
